

# BLEACHER COVERS & SIDE CURTAINS

Western Industrial Canvas designs and manufactures custom bleacher covers and curtains to school districts and colleges. Our covers prevent sports equipment from getting stuck in retracted bleachers, and our side curtains restrict access below bleachers. Both are designed with heavy-duty vinyl and help ensure gymnasiums remain safe for patrons and students.

## CARE:

To care for your bleacher covers and side curtains, simply wipe off debris with an absorbent rag. Typical household spray cleaners also work very well for heavy-duty grime on a vinyl surface.

## INSTALLATION:

Since size and design varies somewhat, specific installation instructions are provided with custom bleacher covers and curtains at the time of delivery.

## STORAGE:

Bleacher covers and side curtains are stored in place. Top covers are stowed behind the top row of bleacher seats, and side curtains retract with bleachers.
